Carnival Saturday
6 p.m.–8 a.m.

11.11.
8 a.m.–8 a.m.

More fun without glass

Under the motto “More fun without glass”, the residents of Cologne can celebrate the street carnival in its strongholds in the “Altstadt” and the “Zülpicher Viertel” without shards. In these areas, carrying and selling glass and glass bottles has been prohibited temporarily. The Stadt Köln and its partners want to protect carnival revellers from unnecessary injuries and dangers.

Prior to entering the glass-free zone, the revellers have the opportunity to dispose of glass bottles and glasses in special containers. Within the zones, restaurants and kiosks are only allowed to sell drinks in plastic or paper cups and in cans or PET bottles.

Employees of the Stadt Köln are taking care that individuals don't violate the rules and defy the ban on glass. They interact with people in a friendly manner; however, they intervene if need be.

We wish you an enjoyable, happy and injury-free carnival period!
